HEN

Love is just a game for **Chizuru Yoshida**, a schoolgirl who is gifted everything as well as beauty. It's a piece of cake for her to flirt with adult men. She used to enjoy making love but no man ever could win her heart. However something has changed within her since she met a girl, **Azumi Yamada** who had been transeferred from another school. Is this her first love, or a new kind of friendship between girls which has never been experienced? What will happen to the future of these two girls whose characters are quite opposite?
